

ARMY AND NAVY FOOTBALL MATCH

A Conference of Representatives of West Point, Annapolis and University of Penn.

WANT TOO MANY SEATS

Proposition to Arrange Benches All Around Gridiron—Phillies' Grounds Also Considered.

PHILADELPHIA, Pa., February 11.—There was a meeting at the office of Dr. J. William White yesterday which will have an important bearing on the next Army and Navy football game. There is now a full understanding on all sides, and it is up to the representatives of Uncle Sam's schools for fighting men at West Point and Annapolis where the contest shall be played. The University of Pennsylvania stands ready to once more act as host in the matter on the same terms as heretofore with the one exception that the temporary west stand, which last season accommodated more than 3,600 spectators, will not again be erected, but to make good the loss of these seats it is proposed to arrange benches on the space inside the three permanent stands and on the turf at the western end of the field. It is believed that more than 2,000 persons could be seated in this way, and that in consequence there would be no loss in the actual seating capacity of the grounds, while the expense and disturbance of the grounds through building the temporary stand would be avoided.

In addition to Dr. White there were present at yesterday's conference the other two members of the Pennsylvania committee, Dr. Edgar F. Smith and C. S. W. Packard, Lieutenant W. E. Smith and the University of Pennsylvania, Lieutenant Commander Reeves and Professor N. M. Terry, of Annapolis.

The matter was gone over carefully and perfect understanding reached. The Pennsylvania people are firm for the usual number of seats, but the total—Which the representatives of the two government schools concede is only fair.

The matter was finally left for settlement in the hands of the authorities at Annapolis and West Point, and it may be some weeks before the decision is known. The government officials recognize that Philadelphia is the best place for the game, but there is a strong desire for a greater number of seats than the present capacity of Franklin Field.

As a result of the conference it is settled that the game will be played in Philadelphia this year, that it is sure that will be played.

Franklin Field. Professor N. M. Terry and the other members of the navy and army committees will write the Ford and Huntington Streets Baseball Grounds, and were much pleased with them. The owners will allow its use for the game either at a definite sum, or will allow each service 10,000 seats and will offer the rest for sale, the money received being considered as rental of the grounds.

Sporting Letters.

The sporting editor of The Times-Dispatch will gladly answer in these columns any question regarding sporting matters. Communications on sporting subjects will be printed, and comments will be made. Address: Sporting Editor, Times-Dispatch.

Gun Tax.
Sporting Editor of The Times-Dispatch:—Is there a special tax on guns in Virginia? P. M. O.
No.—Editor.

M. F. H. of London.
Sporting Editor of The Times-Dispatch:—Will you kindly tell me who is the master of the Loudoun pack, near Leesburg, Va.?
S. A. K.

Mr. Westmoreland Davis. The Middlesex pack, from South Lincoln, Mass., has been hunting the Loudoun country for the past two seasons, as the guest of the local pack.—Editor.

Sporting Editor of The Times-Dispatch:—Sir—Will you please tell me who is the all-around champion of the A. A. U. last year.
E. R. L.
Martin J. Sheridan, Irish-American A. A. U. New York with a record of 7,139 1/2 points.—Editor.

Bible May Stay here.
It is said that Stanley Light wishes to play in one of the Virginia League clubs and does not want to go back to Oakland, Cal. He has requested his release several times, but his letters have remained unanswered. He is a good man with the stick, and would make a valuable player for any team in the circuit.

February 12th in the Annals of Sport.

- 1839.—At Heather, England: W. Thompson (Bendigo) defeated Deaf Burke in ten rounds.
- 1850.—Sam Langford, negro pugilist, born at Weymouth, N. S.
- 1855.—At Indianapolis: The Western League of Baseball Clubs organized.
- 1900.—At Brooklyn: George Gardner knocked out Jimmy Handier in third round.
- 1906.—At Havana: Demegott, in an 80-horse power Darracq car, won the 200-mile record for professionals; time, 2 hr. 45m. 19s.
- 1907.—At Newburg, N. Y.: Morris Wood, of Saratoga, successfully defended his title of amateur skating champion of the United States.

\$50. GIVEN AWAY! CONTEST FOR BOYS and GIRLS

The boy or girl sending in the largest number of names (W. C. Boyd & Co.) clipped from the label on the cans of

Boyd's Pure Phosphate Baking Powder

by April 1, 1908, will receive the first prize; the next largest, second prize, etc., until the six prizes are awarded.

Our name on the front of the label of a half-pound can counts one. Our name from a one-pound can counts two.

If your regular grocer will not give you Boyd's Baking Powder, phone us, and we will tell you the nearest dealer who will supply you.

Watch our advertisements for the Double Value Coupon—a coupon which will DOUBLE the value of all the names you collect and send in at any one time. We printed one last Sunday. There'll be another one soon.

Last Sunday's Times-Dispatch tells the whole story. Phone us (4860) and we will mail you full particulars of the contest.

THE PRIZES:

- First Prize, Boys' or Girls' Bicycle (value of \$25).
- Second Prize, Boys' or Girls' Watch (value of \$12.50).
- Third Prize, \$3.50 Roller Skates.
- Fourth Prize, \$2.50 Roller Skates.
- Fifth Prize, \$2.50 Roller Skates.
- Sixth Prize, \$2.50 Roller Skates.

WATER POLO AS A WINTER SPORT

SCORING ON A HURDLE PLAY.

SUSPEND JOCKEY FOR ROUGH RIDING

Leibert Ruled Out for a Week for Manner in Which He Rides Ben Walmsli.

NEW ORLEANS, February 11.—Jockey Liebert was to-day suspended for a week at the Fair Grounds after the second race for the rough ride he gave Ben Walmsli, a 50 to 1 shot, in the second race. Ben Walmsli finished third. The fourth race was won by Liebert, at 4 to 1. The favorite, Big Ben, was third. Weather cloudy; track heavy.

First race—three furlongs, selling—Inela (8 to 1) first, Kitty Fisher (7 to 2) second, Exotic (3 to 1) third. Time, 1:17.1-5.

Second race—five and one-half furlongs, selling—Bobbin' Around (11 to 5) first, Needmore (12 to 1) second, Ben Walmsli (50 to 1) third. Time, 1:12.1-5.

Third race—seven furlongs, selling—Flaxman (8 to 1) first, Baleshed (4 to 1) second, Prytania (100 to 1) third. Time, 1:32.3-5.

Fourth race—six furlongs, selling—Robert (6 to 1) first, Royal Onyx (6 to 1) second, Big Ben (9 to 5) third. Time, 1:17.1-5.

Fifth race—six furlongs, selling—Ethel Carr (12 to 5) first, Fred Mulholland (13 to 5) second, Caper (8 to 1) third. Time, 1:17.3-5.

Sixth race—mile and seventy yards, selling—Dr. McCue (8 to 5) first, Bertha E. (12 to 1) second, Sponge Cake (12 to 1) third. Time, 1:50.1-5.

Seventh race—mile and seventy yards, selling—Highes (15 to 1) first, Gilpin (7 to 1) second, Creel (4 to 1) third. Time, 1:50.2-5.

INTERUNIVERSITY MEET.

English Athletic Authorities Divided on Question of International Games. CAMBRIDGE, February 11.—Some members of the Cambridge University Athletic Association, including E. H. Ryle, president, are of the opinion that the British universities should accept the challenge sent by the Intercollegiate Association of Amateur Athletes of America for an international track and field athletic meeting between teams representing the colleges and universities of the United States and those of Great Britain, following the Olympic Games, this year, and they are making an effort to bring about a meeting this summer. Others, however, are of the opinion that the Oxford and the Cambridge Clubs, who are students, are in favor of accepting the American challenge with some modifications, while the honorary treasurers of the clubs, who are both professors, think that the obstacles are insurmountable.

Mr. Ryle said to-day: "As has been

Almost all the American universities have water polo teams, and spirited intercollegiate contests are engaged in during the winter season, besides which many of the big athletic clubs have teams. Interest in the game is constantly growing, and every season sees a greater number of contestants. From the standpoint of physical culture, the game is a fine one. The swimming develops the body thoroughly along graceful and symmetrical lines, exercises every muscle. The passing and throwing give breadth to the chest and shoulders and strength to the arms and neck, while the tread-water motion necessary to keep one afloat while handling the ball develops the muscles of the legs and stomach. A few years of the game develops the water polo player into a thoroughly competent life-saver.

said before, it is most difficult for us to keep the teams together until July, as the university athletes go out of training in March. If, however, we will keep in condition for the Olympic Games, as the Americans make up a team. It would never consent to carry on until after the Olympic Games, as the Americans suggest, for the people then would be tired of athletics and we could not get anybody to attend. I suggest that instead of the universities have their contests the first week in July, at the Queen's Club, after which the men could take part in the Olympic Games if they desire.

"I had another idea, but I have been informed that the Olympic Association will not agree to this. This year, however, the Olympic Games will be opened with intercollegiate sports. I suggest that the change be accepted if the American athletes consent to change the date to the first week in July."

Mr. Ryle is not confident of carrying this proposal with the two treasurers opposed to him, but the question will be discussed at the meeting to be called to discuss the decision reached by the Oxford Club.

Mr. Gray, the honorary treasurer of the club, does not think it will be possible to accept the American challenge, as there is no telling how many of the present track team will be at the university in July. Some of the men are in their last year, and furthermore, it would be impossible to train since January, to continue to work after the Oxford-Cambridge sports.

TO FOLLOW COLUMBUS

Race Being Arranged From Spain to Canary Islands. BOSTON, Mass., February 11.—An international ocean yacht race on an historic course from Palos, Spain, to the Canary Islands, will be the first stage of his voyage to the New World, has been arranged for next summer by the yachtsmen of Spain, and by the members of the Eastern Yacht Club. It is planned to send the contestants away on August 30, the 45th anniversary of the sailing of Columbus, and to have the start as near the point as possible from which the Santa Maria, Christopher Columbus' flagship, sailed. The finish will be at Santa Cruz, on the Island of Tenerife, a distance of about 600 miles, which Columbus covered in six days.

All the yacht clubs of North and South America will be invited to join with the Spaniards, and it is possible that European clubs may also be asked to participate, but at present it is the intention to confine the race to those countries directly benefited by the discoveries of Columbus.

The details of the race are already being perfected by a committee appointed by the city of Palos, and by members of the Royal Mediterranean Club. It is expected that King Alfonso will witness the start and may receive the victor's yachtman before they leave on their voyage.

As the race does not start until six weeks after the termination of the baseball season, it is expected that the contestants in that event will have time to strike over to Spain and win international honors.

ORTH IN FINE CONDITION

Leaves to Join New York American's Staff and Say He Will Do Well. (Special to The Times-Dispatch.)

LYNCHBURG, Va., February 11.—Al Orth, the celebrated member of the New York Americans, left this morning for Hot Springs, Ark., to join the remainder of the Highlander pitching staff, before going to Atlanta for the regular spring training. Orth had been doing light work at the skating rink and at the Y. M. C. A. gymnasium, and states that he was never in better condition. He expects to pitch the game of his life this year, unless, as was the case last season, it is necessary to overwork him.

Haughton to Coach Harvard. CAMBRIDGE, Mass., February 11.—Percy D. Haughton, of Brookline, was

NEWS OF THE BOXERS

Jack (Twin) Sullivan and Jim Flynn, of Pueblo, Ark. box ten rounds at Los Angeles to-night.

It is reported that Harry Lewis and Jimmy Gardner are to meet on the Pacific coast next month.

Jack Everhardt and Jack Graham are to meet at New Orleans to-night in a ten-round fight.

George Decker, of Philadelphia, and Frankie Madden, of New York, are to box eight rounds at South Norwalk, Conn.

Kid Carter, of Brooklyn, well known as a middleweight fighter a few years ago, is now driving a truck in that city.

Charley Hite, the Albany welterweight, has been matched to box Willie Lewis at the Olympic Athletic Club, New York on Thursday night, February 20th.

Spike Robson has changed his mind about boxing on his present visit to this country and he has been matched to box Grover Hayes at the National Club on February 23d.

Fred Soars, the well-known sporting man of Philadelphia, has matched Jim Potts, of Minneapolis, to box Jeff Dougherty, of New York, at the Brown Athletic Club in that city to-night.

Johnny Summers gets beaten regularly every time he fights, but he is still in demand. Summers has been matched to box Jack Goodman at the Sharkey Club, New York, in about two weeks.

Scandy Bill Quinn, the colored welterweight, who a few years ago gave Joe Walcott one of the hardest fights he ever had, is suffering from tuberculosis, and is but a shadow of his former self.

Battling Nelson was offered a match with Packey McFarland at Milwaukee, but he did not get the terms he wanted, which were 20 per cent. of the receipts to sign the articles of agreement and 40 per cent. more of the receipts whether he won, lost or drew.

The swimming develops the body thoroughly along graceful and symmetrical lines, exercises every muscle. The passing and throwing give breadth to the chest and shoulders and strength to the arms and neck, while the tread-water motion necessary to keep one afloat while handling the ball develops the muscles of the legs and stomach. A few years of the game develops the water polo player into a thoroughly competent life-saver.

Almost all the American universities have water polo teams, and spirited intercollegiate contests are engaged in during the winter season, besides which many of the big athletic clubs have teams. Interest in the game is constantly growing, and every season sees a greater number of contestants. From the standpoint of physical culture, the game is a fine one.
